VIRTUAL WORKSHOPS

Every workshop. *Wherever* your team is.

Virtual workshops are just like our onsite workshops — they're simply offered virtually, in shorter sessions instead of at your site. They're great for remote teams, or any team that doesn't have time for a longer workshop.

Who Should Consider Virtual Workshops?

Because they're offered in shorter sessions, virtual workshops are doable for most employees — including teams that are remote, distributed, or simply short on time.

ONSITE VS. VIRTUAL FORMAT

Onsite ONE FULL-DAY SESSION	Virtual SESSION 1	Virtual SESSION 2	Virtual SESSION 3
---------------------------------------	-----------------------------	-----------------------------	-----------------------------

Same content, split into **shorter sessions** scheduled around your team's calendar.

Benefits of a Virtual Workshop

Virtual workshops allow for a deeper dive into topics, are customized to focus on the issues that matter most to your team, and give participants knowledge over time — so they can build, practice, and get feedback on the skills they learn.

What Your Team Can Expect

Our virtual workshops are robust and completely customized. They're scheduled when convenient for your team, use your team's own writing as examples and exercises, and include multiple opportunities for participants to ask questions and get feedback from the instructor. We can also record sessions and provide homework.

Not sure whether onsite or virtual is the better fit? **Either way, your team gets the same workshop** — just delivered on the schedule that works for them.

Bring your team together, wherever they are.

Ask about scheduling a virtual workshop.
