

Karen Wolf, APTD

Karen Wolf is a learner advocate who values and implements critical thinking and problem-solving when designing learning experiences and reviewing and analyzing technical documents. She has spent the last 25 years working in pharma, where she, in addition to implementing learning solutions, reviewed a variety of documents including study protocols, reports, and submission documents.

Karen's role as a clinical trial scientist, her eye for detail, and her deep understanding of what constitutes quality in pharma documents made her a valued editor and reviewer for the pharma companies she worked for!

Karen's vast experience leading cross-functional teams and developing and delivering training on technical topics, including good clinical practice (GCP) and standard operating procedures (SOPs), has prepared her well for her role as an analyst at Hurley Write.

She is a master at helping clients diagnose issues in their communication processes and recommending solutions that work!
